

SORRY WE MISSED YOU

By March next year, the Victorian government will make its most important decision on climate change for the next decade - setting targets for cutting greenhouse gas pollution.

As your local constituent, I'd like to know whether you will aim for pollution targets to keep global warming below 1.5 degrees.

Will you champion state climate targets in line with keeping global warming below 1.5 degrees?

Can you please email me a yes or no response to this question at:

Thanks for your time, and sorry we missed you!
